Somehow there is a disconnect between what we are saying in Washington and what we are doing. If we want the return of jobs, growth and opportunity—if we want to restore the kind of opportunity that was routinely available to America when the Presiding Officer of the Senate was growing up and when I was growing up—we are going to have to change the way we do business.

We are going to have to spend less of the taxpayers' money in Washington, so that the taxpayer can keep it, so the taxpayer and the taxpayer's family can spend it, so that they can invest it in their future and, therefore, America's future. That is the difference between the Clinton vision and the vision of Republican Members of the House and the Senate.

I yield the floor, and I thank my colleague. I want to apologize to him. During the speech of our colleague, Senator GORTON, I had walked into the anteroom, and he did not see me here on the floor. I am sorry for the inconvenience.

Mr. SPECTER addressed the Chair. The PRESIDING OFFICER. The Senator from Pennsylvania.

Mr. SPECTER. I thank my colleague from Texas for those comments. We try on the floor to respect those who have arrived earlier. I had not known that the distinguished Senator from Texas had been awaiting recognition. I walked in; he was not on the floor. But I learned a little by listening to Senator Gramm, which I do when I listen to Senator Gramm. I have had occasion to listen to Senator Gramm a great deal over the past year and have learned from the Senator over the course of the last year in other activities I have undertaken.

THE OMNIBUS APPROPRIATIONS

Mr. SPECTER. I have sought recognition, Mr. President, to express my chagrin and disappointment that we are apparently not going to have an omnibus appropriations bill, but later today are going to proceed with another continuing resolution. Perhaps it is appropriate on April 1, on April Fool's Day, that Washington, DC, again looks like a collective group of April fools unable to pass a budget, and on April Fool's Day unable to finish the business of the preceding year, 1995.

Within the past hour I have come from the conference of the House and Senate where very strenuous efforts have been made for the past several days to find a compromise on appropriations.

I have the honor to chair the Senate Subcommittee on Labor, Health and Human Services. Perhaps I use the wrong word when I say it is an "honor." It has been really an embarrassment that we have not been able to bring a bill, the legislation, to fruition for funding which should have been in place by last October 1. But that bill

has been tied up for a variety of reasons, with equal blame apportioned on both sides of the aisle, while we have been in gridlock on a number of matters

For many, many weeks I have been pressing very hard to try to get the matter resolved, have been working with Chief of Staff Leon Panetta to find offsets, have scheduled a series of hearings with the Secretaries of the three Departments—Labor, Health and Human Services, and Education—and we finally brought the bill to the Senate floor and finally got it passed by a very substantial number, 79 to 21.

The key part of that bill was a bipartisan amendment worked out by the distinguished Senator from Iowa, Senator HARKIN, and myself, Senator HARKIN being the ranking member of the committee. We passed that amendment 84 to 16. During about 20 hours of conferencing, Mr. President, I think we had been able to finally thread the needle to find a bill which would probably have been signed by the President and which was acceptable to the House of Representatives.

That is pretty hard to do in Washington, DC, today. There is considerably more flexibility in the U.S. Senate in trying to arrive at accommodation. We passed the bill which had the amendment which Senator Harkin and I had constructed and fashioned, which added \$2.7 billion to some very important functions, to education, worker safety, and to health and human services.

Notwithstanding that addition, the President had sent word that he wanted some \$484 million more. Well, we were at the break point with the bill which we conferenced with the House of Representatives when we had called for \$2.7 billion more in spending.

Let me point out that that \$2.7 billion was endorsed by both leaders, Senator Dole and Senator Daschle, 37 out of the 53 Republicans voted for the amendment, 37 Republicans voted for it and 16 voted against it, more than twothirds of our Republican body voted for it, which is a very, very strong showing, given the constituency of our Senate caucus, and the amendment received all of the 47 Democratic votes. So, when we went to conference with this bill I thought, Senator HARKIN thought, Senator HATFIELD thought, that we were within range to have it signed by the President. We were not sure, but we thought we were within that range.

We also constructed the bill so that it would be agreed to by our House colleagues. We were not sure about that either. It was very, very tough on negotiations. Finally, the House Labor, Health and Human Services conferees approved the bill by a vote of 6 to 5. You cannot get any closer than 6 to 5. But what we were veritably doing is running between the raindrops in a hurricane to find something which would satisfy our House colleagues and something which might be signed by the President.

Regrettably, that is all for naught or mostly all for naught—mostly for naught or probably for naught—because when we do not get the bill and have a 3-week hiatus, it all unravels.

Senator Baker was the majority leader when I first came to this body. I learned a great deal from Senator Baker. One of his famous statements—we were here at 11:30 one night. We were on the finance bill. There were 63 amendments pending. Senator Baker said, "We're going to proceed and finish this bill because amendments, like mushrooms, grow overnight." We stayed through until 6:30 in the morning. We had some accepted. We had half a dozen votes. Many dropped by the wayside. We finished the bill.

The dynamism in the U.S. Senate and the House is, if you do not push to get it through, it all unravels. We were on the verge of getting it through. I compliment our distinguished colleague, Senator HATFIELD, for his prodigious work in shepherding this matter through and would note his consternation and amazement when he heard last night that we were going to have a continuing resolution. That was not known by the chairman of the Senate Appropriations Committee, who was chairing the conference.

I think it is very regrettable because, if we were going to have the time to present this bill on the floor today, or perhaps tomorrow—it would not be unheard of or out of line for us to work on a Saturday, even if it would mean a day less of the recess. That has happened before.

These matters just do not coalesce until the very last minute. If there is more time for argument, more time for discussion, and more time for disagreement, when we finally work it out, it is an accommodation and a compromise. Nobody is really happy, and if you have more time to argue it some more, you expected to be in session last night until past midnight and then again today.

With that pressure on, we were on the verge of having an omnibus appropriations bill, which I think would have concluded the matter. It is with considerable chagrin and considerable disappointment, speaking for myself, that we are not finishing. I think it is with considerable chagrin and considerable disappointment that the American people are watching the process and seeing April 1 come and seeing a bunch of "April fools" in Washington, DC, at both ends of Pennsylvania Avenue, unable to get the matter done. There is a responsibility in both Houses, a bicameral responsibility, and a responsibility on both sides of the aisle-Republicans and Democrats are equally at fault—and responsibility at both ends of Pennsylvania Avenue, because there is no easy compromise and no meeting of the minds without an elaborate, inordinate thrashing process where the White House always wants more and some here always want less. We are on the verge of getting it done.

I think it is very regrettable we did not conclude it.

Mr. President, when we added the \$2.7 billion included in the Specter-Harkin amendment, we were able to add to some very, very important programs on education—that is a priority, second to none—and important matters on worker safety, important matters on Health and Human Services.

I know my distinguished colleague from Rhode Island is on the floor waiting to speak, and I will not go through the detail which I would have. Sometimes on Friday afternoon at 1:30 there is nobody seeking recognition on the floor. Instead, I will have printed in the

RECORD this chart which shows a comparison, a transition, as to where the appropriations process had been, how we made the additions, how we came to the accommodations and compromises, and finish within \$20 million, which is a small fraction of the \$2.7 billion, we came in \$20 million under the \$2.7 billion, and actually only \$14 million, because a \$6 million addition was added by Congresswoman Pelosi on an education program, which I thought was fine.

So we did the job. Regrettably, it is not altogether finished. Hopefully, a good part of this work will last, and we will be able to build on this when we come back, to finish this omnibus appropriations bill.

There are a few outstanding matters on language and a few other outstanding issues, but I think they would have been resolved fairly quickly had the pressure been maintained to finish this, without the talk of a continuing resolution.

I ask unanimous consent that this chart be printed at the conclusion of my remarks.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

	Fiscal year 1995	House	Specter/Harkin floor amend.	Senate	Conference, proposal, 3/27/96	Conference 3/27/96 vs. Senate	Conference, proposal, 3/28/96	Conference 3/28/96 vs. Senate

EXTENSION OF TIME FOR MORNING BUSINESS

Mr. CHAFEE. Mr. President, I ask unanimous consent that morning business be extended until the hour of 2 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN MEMORY OF DAVID PACKARD

Mr. CHAFEE. Mr. President, 3 days ago in Palo Alto, CA, a very remarkable and truly great American died, David Packard. David Packard deserves ranking with the most innova-

tive and outstanding builders and manufacturers in our Nation's history.

He and his partner, Bill Hewlett, were the fathers of the electronic industry in Silicon Valley. Starting just 60 years ago, literally, in a garage, David Packard and Bill Hewlett began building an innovative audio oscillator
